Summary

Goal-oriented Computer Science undergraduate with strong foundation in Python, C++, and IoT systems. Experienced in building projects ranging from smart lock systems using ESP32 to streaming platforms with mood-based features. Finalist in AlgoWars Coding Competition and active IEEE Community member at Chandigarh University.

Education

BTech	Chandigarh University , Computer Science and Engineering • CGPA: 8.27/10	Gharuan, Punjab, India Aug 2024 – June 2028
Class 12 CBSE	Maharishi Patanjali Vidya Mandir , Science (PCM with Computer Science) • Score: 80%	Prayagraj, India Apr 2022 – Mar 2023
Class 10 ICSE	Prabhat Academy , Science • Score: 96.5%	Pratapgarh, India Apr 2020 – Mar 2021

Skills

Languages: C++, Python, C, Java, JavaScript, HTML, SQL

Web Development & UI/UX: HTML5, CSS3, JavaScript, Responsive Design, Portfolio Development, UI/UX Design

IoT & Embedded: ESP32, Sensors Integration, MQTT, IoT Protocols, Smart Systems

Tools & Platforms: Git, GitHub, VS Code, Linux, Coursera, Figma, Canva, Adobe Photoshop, Adobe Illustrator

Soft Skills: Team Leadership, Negotiation, Persuasion, Active Listening, Problem Solving

Projects

Smart Lock System	Jan 2025 – Mar 2025
IoT-based secure access control system using ESP32 microcontroller	
- Designed and developed a smart lock system integrating ESP32 with sensors and IoT for secure access control - Implemented real-time sensor data processing for authentication and automated locking mechanisms - Built hardware-software integration pipeline using Python for backend logic and ESP32 for embedded control	
Online Streaming Platform	Oct 2024 – Dec 2024
Python-based streaming application with mood-driven features	
- Built a streaming platform inspired by Python with mood control and emoji depiction capabilities - Implemented content recommendation logic based on user mood selection and interaction patterns - Designed intuitive user interface for seamless media streaming and mood-based filtering	
Personal Portfolio Website	Aug 2024 – Sept 2024
Responsive portfolio website built with HTML and CSS	
- Designed and developed a personal portfolio website using HTML for structure and CSS for layout and styling - Implemented responsive design principles ensuring cross-device compatibility - Created clean typography and visual hierarchy for professional presentation	

Achievements

- Working as a **Lead Graphic Designer Intern at Match Blindly**, creating impactful branding and social media creatives for the startup.
- Hackathon: Participated in 4+ national-level hackathons across North India
- IEEE Community: Active member of IEEE Community at Chandigarh University
- Academic Excellence: 96.5% in Class 10 ICSE
- AlgoWars Coding Competition: Finalist at Chandigarh University

Certifications

- Python Programming Course - Coursera (Problem-solving and project applications)
- IoT Hands-on Workshop - Certificate of Completion, Chandigarh University
- Ethical Hacking Certification - Infosys

Extracurricular

- Active member of IEEE Community, Chandigarh University
- Attended IoT Workshops at Chandigarh University
- Interests: Writing, Sketching, Travelling, Reading
- Languages: English, Hindi
- Volunteered as a Social Media Designer for the C-DAC Bug Bounty 36-Hour Challenge.
